PAYEL DAS
Web Devloper

Highly motivated and detail-oriented BCA student with a strong foundation in computer science and programming. Proficient in JavaScript, C, C++, and Node.js, with a keen interest in developing scalable and efficient software solutions. Eager to apply my technical skills and knowledge to drive innovation and growth in a dynamic and forward-thinking organization.

PROJECTS

Eduvia – eBook Online Website

- Developed a front-end e-learning platform using HTML, CSS, and JavaScript, where students can access BCA notes in PDF format.
- Integrated Google Drive to store and manage study materials for seamless access.
- Designed an intuitive UI/UX for better readability and navigation.
- No backend or login system included—students can directly read/download notes.

E-Commerce Website   **WORKING**

- Built a fully functional e-commerce website focused on selling phones.
- Developed the frontend using HTML, CSS, and JavaScript with a responsive design.
- Implemented a backend system for product management and order processing.
- Integrated a payment gateway to facilitate secure transactions.

Upcoming Projects

Pluse – Social Media Dashboard with Private Chat & Money Transfer (In Development)

- A powerful social media dashboard that helps users track and analyze social media performance across platforms like Instagram, Twitter, and Facebook.
- Provides real-time insights into engagement, follower growth, and post performance for data-driven decisions.
- Includes a private chat system for seamless communication.
- Integrates a secure money transfer feature, allowing users to send and receive payments directly within the platform.
